WIDE SPECTRUM Research Journal seeks to publish research findings and articles that would promote research awareness and understanding dissemination. We welcome submissions from all fields of Bioscience, Social science, Commerce, Communication, Computer Science and Management Science.

Information to Authors

- The papers should be research based or related, be original and comprise previously unpublished material.
- All quoted, reproduced material should be referenced. Other than this, all contents should be original – authors own words, ideas, findings and arguments.
- Submission of manuscript implies that the same is not being considered for publication elsewhere.
- Title of the paper should be followed by name, e-mail and affiliation of author(s).
- Manuscript must be typed in MS word.
- Use a single column layout with both left and right margins justified.
- Font: Main Body – 12 pt; Style: Times, or the closest comparable font available.
- Abstract, not exceeding 200 words, followed by 4 to 5 key words is required.
- The paper should end with a conclusion summarizing the findings of the paper.

Tables, Figures and Photographs

- Tables and figures should appear in the document near/after where they are referenced in the text.
- Photographs must be sharp, and exhibit good contrast.
- All figures and tables must have a caption that is intelligible without reference to the text.

References

- Correct and complete referencing of quoted and reproduced material is the obligation of the author. In the text, references should be inserted in parentheses in full.
- For single or double author papers, refer to authors' names followed by the year of publication (e.g., Hanson and Langmuir, 1978; and Hanson, 1980).
- For multiple author papers, name of the first author should be followed by “*et al.*”
e.g. Kobayashi *et al.* (1996).
- Arrange all references cited in the text at the end of the paper in alphabetical order in the following style:
- Austin B and Austin D A (1993), Bacterial Fish Pathogens: Disease in Farmed and Wild Fish, 2nd Edition, Chichester E H (Ed.), United Kingdom.
- Kobayashi H, Namikoshi M, Yoshimoto T and Yokochi T, (1996) “A Screening Method for Antimitotic and Antifungal Substances Using Conidia of *Pyricularia oryzae*, Modification and Application to Tropical Marine Fungi”, *J. Antibiot.*, Vol. 49, No. 9, pp. 873-879.
- Papers are processed through a double-blind referral system. To ensure anonymity, the writer's name, designation and other details should appear only on the first page along with the title of the paper and should not be repeated anywhere else.
- Fact of papers presented/submitted in a conference/seminar must be clearly mentioned at the bottom of the first page of the manuscript and the author should specify with whom the copyright rests.
- All manuscripts should be in electronic form and sent to: widespectrum@grd.edu.in

Types of Paper Published

- **STANDARD PAPERS** - These are original articles reporting cutting-edge research of scientific relevance and should not exceed 3000 words. The word count is inclusive of all parts of the paper: abstract, main text, acknowledgements, references, tables and figure legends.
- **REVIEWS** - Reviews provide timely synthesis of topical themes and overviews of trends and development in major areas Bioscience, Social science, Commerce and Management science. They should also offer new insights or perspectives to guide future research efforts. Reviews should not exceed 4000 words inclusive of all parts of the paper, as above.
- Discussions on recent papers.
